

California Department of Corrections
INFORMATIONAL BULLETIN

**Subject: AVAILABILITY OF NINE NEW HEALTH
CARE SERVICES FORMS**

Number:

03/03

Date Issued:

March 17, 2003

The purpose of this Informational Bulletin is to officially announce the availability of nine new California Department of Corrections' (CDC) Health Care Services Division forms. These forms were created to support the implementation of the Chronic Care Program that is outlined in the Inmate Medical Services Policies and Procedures (*Plata v. Davis*).

The Chronic Care Program is designed to identify inmates with chronic health conditions and to provide medically necessary health care services. The Department provides the following chronic care clinics:

- Cardiovascular
- Diabetes Mellitus
- General Medicine (multiple chronic conditions not covered by other clinics, e.g., Arthritis, Hepatitis, Peptic Ulcer Disease, Colitis)
- Gynecology
- Human Immunodeficiency Virus (HIV)
- Pulmonary Disease
- Seizure Disorder
- Tuberculosis (TB)

At a patient's initial chronic care visit, a physician completes an Intake Evaluation Form. Subsequent visits are documented on an appropriate Chronic Care Visit form. All Chronic Care Program forms are filed in the Yellow-Right, Death Summary/Problem List/Progress Notes/ER Records section of the Unit Health Record (UHR).

Effective upon receipt of this bulletin, these forms may be ordered from Prison Industry Authority on a CDC Form 1853, Reproduction Order.

Each new form is one-sided, printed on 8 ½" x 11", white bond paper, and available in sets of 500.
